

The **Ferno Confined Space Rescue Kit (CSRK)** is designed for multi-purpose use including:

- Confined space entry and egress
- Rescue
- Working at height
- Work positioning
- Ascent and controlled descent
- As a main or secondary system.

The Confined Space Rescue Kit's 4:1 mechanical advantage lifting capability allows the operator to reduce the manual handling lift ration to a quarter of the load weight with a manual override for descent.

50 m of rope is provided with the system which allows for a 'working length' of approximately 12 m lowering or lifting.

- Supplied standard with a heavy duty rope bag
- Customised rope lengths available
