

# **Pacific Hoists**

### **ELECTRICAL FEED SYSTEMS**

Pacific Hoists offer a range of electrical feed systems to supply power to travelling hoists, cranes and other machinery.

#### **AKAPP Multi Conductor Systems**

AKAPP delivers compact, reliable and secure power supply systems for cranes, hoists and trolleys. The installation of these systems is suitable for both inside and outside, high and low temperatures and for extreme (weather) conditions. The unique double-sided flexible rubber seal provides protection against dust, damp and corrosive environments. The rail system accepts up to seven conductors in continuous lengths, up to 300m.

#### **Metreel Festoon System**

The Metreel flatform cable festoon system is designed to support one or more flatform cables of various sizes. The "C" track provides sag free support of power and pendent cables, air lines etc. to electric hoists, air hoists, power tools, air tools in a wide variety of applications.

## **Roller Hanger System**

This roller hanger system is an economical solution for powering an electric hoist which is easy to install and requires minimal maintenance. The hangers accept a round form cable and operate along a fixed wire.

#### **Zeca Cable Reels**

Zeca cable reels are lightweight and provide a safe and economical method of supplying power to moving machinery. They are designed for outdoor and indoor installations and require minimal assembly. The reels are spring loaded; allowing the cable to be pulled out and to automatically recover as the machine moves back and forward. A large range of cable lengths are available.

# **Specifications**

CATENARY CABLE & STRAINER WIRE SYSTEM           Pacific Cable Trolleys         N/A         CAB001           3mm Galv Strainer Wire         N/A         400002           Round Cable 1.5mm         4 core & 10 amps         CAB400           Round Cable 1.5mm         3 core x 10 amps         CAB300           CABLE REELS (RUN ON EITHER SINGLE OR THREE-PHASE)           Zeca (6179PRC) with 15m 4 x 2.5mm² cable         10 amps         ZEC120           Zeca (6521PRC) with 15m 4 x 2.5mm² cable         20 amps         ZEC110           Zeca (6181PRC) with 15m 4 x 1.5mm² cable         10 amps         ZEC130           Zeca (5821XF) with 5.5m 4 x 2.5mm² cable         10 amps         ZEC140           Zeca (5823XF) with 8m 4 x 1.5mm² cable         10 amps         ZEC150           FLATFORM CABLE           4 core x 2.5mm² PVC         25 amps         CAB425           13 core x 1.5mm² PVC         20 amps         CAB470           PENDANT CABLE - DANGLEFLEX
