

## Forklift Container Ramps

The **FCR65 Forklift Container Ramp** is designed to be an economic solution for the safe loading and unloading of goods from a container.

### FEATURES:

- Designed to handle most general applications
- 1.5m ramp length allowing easy placement and removal of pallets in a container
- Fitted with handy flip-up pockets to enable safe transport
- Safety chains ensure a safe connection to the container while in use
- Reinforced underside to eliminate steel fatigue
- Enamel paint finish

The **CRN8 Forklift Container Ramp** is designed for bridging into standard containers from ground level.

### FEATURES:

- Will suit most applications for container access
- 2.0m ramp length allowing easy placement and removal of pallets in a container
- Self-levelling lip allows for full load capacity when on slightly uneven ground
- Ramp footing easily folds up to allow access to the fork pockets for transport and placement
- Safety chains ensure a safe connection to the container while in use
- Reinforced underside to eliminate steel fatigue
- Optional Reefer Ramp Extension (CRN8RE) allows forklift access to refrigerated containers
- Enamel paint finish
