

# MEZ-MATE Mezzanine Goods Lift

We have a range of MEZ-MATE mezzanine goods lifts for efficient movement of goods to upper mezzanine level.

The MEZ-MATE 500kg mezzanine goods lift is ideal for use in warehouses, self-storage units, commercial & industrial facilities and retail outlets. The single level 500kg goods lift is designed as a cost effective means to provide quick and reliable access to secondary storage areas such as mezzanines and other raised storage areas.

Optimum's MEZ-MATE mezzanine goods lifts offer the most economical means to access your raised storage areas without ever compromising on quality. With a single level lift, up to 5m high and large goods cages we have the unit to suit your requirements.

- Custom platform sizes up to 1500mm x 2000mm
