PACIFIC WIRE ROPE PULLING HOISTS

Pacific Wire Rope Pulling Hoists are lever operated hand winches offering a light weight, strong performance and substantial operating life with the added advantages of lower operator effort and less rope wear. They are designed to be operated by one person to perform tasks such as lifting, pulling and general movement of loads. Small, compact and light weight, Pacific Pull Lift Winches can be easily transported and used for many applications including construction, pipe laying, movement and positioning of machinery and the loading and unloading of heavy and bulky goods for transportation.
