

Team Lift – Confined Space 360 Turntables

Model: CS1

Complete 360 degree access

Simple Maintenance

Double row of sealed ball bearings supporting the top, prevents warping.

Springs can be removed simply and easily for lowering load weights

All Team lift pallet levelers can be finished in either a zinc plated anti-rust finish, ready for use with food, chemical and pharmaceutical companies, or our standard black and yellow coat finish.

Unit available in one tonne or two tonne capacities.
